

● MEET HOTELGPT

# Every stay, intelligently handled.

One AI layer for guest conversations, hotel operations and the moments that turn service into loyalty.

ALWAYS ON

Voice · Chat ·  
Translation

From the first question to the final follow-up.

● ONE CONTINUOUS CONVERSATION

Guests do not see  
departments.  
They see one hotel.

HotelGPT connects guest intent to the people, knowledge and systems that can complete the job.

● EVERY GUEST FEELS UNDERSTOOD

# Speak naturally. Serve globally.

HotelGPT listens, transcribes and responds in the guest's language—while your team receives a clear operational summary.

GUEST SAID

“¿Podrían organizar un traslado al aeropuerto para mañana?”

TEAM SUMMARY · ENGLISH

文

Airport transfer requested · Tomorrow morning · Confirm pickup time

READY

● ONE AI TEAM

# Four jobs. One standard.

Start with the highest-impact journey, then expand across the stay.

01 · CAPTURE REVENUE

## Convert every enquiry.

Answer instantly, check availability and guide the direct booking.

02 · DELIGHT GUESTS

## Personal service, at message speed.

Remember preferences and resolve requests in the guest's language.

03 · RUN OPERATIONS

## Turn requests into action.

Route tasks, track SLAs and close the loop automatically.

04 · SURFACE INSIGHTS

## Know what needs attention.

Find recurring friction before it reaches the next review.

● ASK ONCE. CONSIDER IT DONE.

# HotelGPT does more than **reply.**

A guest request becomes a governed workflow, with ownership and follow-through visible at every step.

- 01 **Understand** GUEST REQUEST  
Read intent, language and property context.
- 02 **Assign** OWNERSHIP  
Route the work to the right hotel team.
- 03 **Track** ACCOUNTABILITY  
Monitor timing, status and escalation rules.
- 04 **Confirm** RESOLUTION  
Close the loop with the guest and the team.

EXAMPLE OUTCOME

Airport transfer confirmed · 8:30 AM

● FEEDBACK THAT MOVES

See what guests feel.  
Act before it repeats.

HotelGPT organises feedback by guest, property and issue—then tracks every follow-up through resolution.

● BUILT AROUND YOUR HOTEL

# One intelligence layer. Across every team.

HotelGPT works with approved knowledge, operating rules and the systems your people already depend on.
